Mudunuri Lakshmi Sravya

Full Stack Developer | Software Engineer | AI/ML Enthusiast
Hyderabad, Telangana, India | +91 8121089903 | mudunuri.sravya.27@gmail.com
LinkedIn | GitHub | Portfolio

Professional Summary

Enthusiastic Full Stack Developer pursuing a Bachelor of Technology (B.Tech) in Computer Science and Engineering (graduating 2027). Built 5 full stack projects and completed 3 virtual internships using JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL. Experienced in responsive web design, database integration, REST API development, secure JWT authentication, and Generative AI API integration. Strong communication and collaboration skills. Seeking Full Stack Developer, Software Engineer, and AI/ML internship or entry-level roles.

Education

BVRIT Hyderabad College of Engineering for Women — Aug 2023 – Present (Expected 2027)
Bachelor of Technology (B.Tech) in Computer Science and Engineering (CGPA: 7.28) — *Hyderabad, Telangana*

Deeksha Junior College — 2021 – 2023
Intermediate – MPC (Aggregate: 87%) — *Hyderabad, Telangana*

Technical Skills

Languages: JavaScript (ES6+), Python, Java, C, C++, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design, Angular (Foundations)
Backend: Node.js, Express.js, RESTful APIs, Socket.IO, JWT Authentication, Database Integration
Databases: MongoDB, PostgreSQL, MySQL, Database Management, Database Design
AI and Integrations: Generative AI APIs, Prompt Engineering, Resume Parsing, PDF Generation
Tools and Practices: Git, GitHub, Version Control, Troubleshooting, Debugging, Testing, Agile/Scrum, Render, Cloudinary
Core Concepts: Data Structures and Algorithms, OOP, Web Security (Authentication, Protected Routes)
Soft Skills: Communication, Collaboration, Problem-Solving, Adaptability

Professional Experience

Web Development Virtual Intern – Prodigy InfoTech — Certificate
Web Development | Dates: add here
- Built responsive web pages and interactive JavaScript applications using DOM manipulation and event handling.
- Used Git and GitHub for version control and deployed projects online.

Software Engineering Virtual Intern – Hewlett Packard Enterprise (HPE) — Certificate
Software Engineering | Dates: add here
- Completed software engineering tasks covering enterprise technology concepts and troubleshooting.

GenAI-Powered Data Analytics Virtual Intern – Tata — Certificate
Data Analytics, Generative AI | Dates: add here
- Completed data analysis and business problem-solving tasks using Generative AI tools.

Projects

InterVexa – AI Interview Preparation Platform — GitHub | 2026
Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT, Generative AI, Cloudinary
- Built a full stack mock interview platform supporting 3 interview modes (HR, technical, behavioural) with resume-based question generation.
- Integrated a Generative AI API for answer evaluation and personalized feedback; added session history and PDF reports.
- Secured the application with JWT authentication and protected routes; used resume parsing to populate candidate profiles.

RecoverAI – AI-Powered FinTech Revenue Recovery Platform — GitHub | Live Demo | 2026
Tech Stack: Node.js, Express.js, MongoDB, JavaScript, REST APIs
- Developed a fintech dashboard with 5 modules: leak detection, recovery management, forecasting, strategy simulation, and analytics.
- Implemented a controlled AI-agent workflow with guardrails, approval mechanisms, audit logging, and synthetic-data testing.

Job Tracker – Job and Internship Application Tracker — GitHub | Live Demo | 2026
Tech Stack: Next.js, Node.js, PostgreSQL, REST APIs
- Built a full stack application with PostgreSQL database integration and CRUD REST APIs to track applications and deadlines.
- Developed a dashboard organized by 4 statuses: Applied, Interviewing, Offer, and Rejected.

MyStudySpace – AI Student Productivity Platform — GitHub | Live Demo | 2025
Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Generative AI API
- Developed a responsive platform for AI-generated notes, summaries, study plans, and task tracking with JWT authentication and MongoDB.

Elsevia – AI-Powered Cultural Discovery Platform — GitHub | 2026
Tech Stack: React, Tailwind CSS, Qloo API
- Built an interactive, responsive interface for recommendations across 5 categories (movies, music, food, fashion, travel) using the Qloo API.

Certifications

- Angular Foundations | MongoDB Foundations | Node.js – Scaler | Smart Coders – Smart Interviews (DSA)
